

Dakota County Technical College

DENT 1135: Chairside Assisting I

A. COURSE DESCRIPTION

Credits: 4

Lecture Hours/Week: 3

Lab Hours/Week: 1

OJT Hours/Week: *.*

Prerequisites: None

Corequisites: None

MnTC Goals: None

This course introduces the student to the fundamentals of working in a dental office setting as a chairside assistant. It introduces concepts of dental charting, techniques of basic equipment, supplies, four-handed dentistry, oral evacuation and instrument identification and their proper use. This course also provides an introduction to the psychology of patient management skills necessary for effective interaction with patients.

B. COURSE EFFECTIVE DATES: 10/14/2010 - Present

C. OUTLINE OF MAJOR CONTENT AREAS

D. LEARNING OUTCOMES (General)

1. Label diagrams of cavity preparation with correct cavity classification
2. Identify G.V. Blacks cavity classification
3. Differentiate between line and point angles
4. Differentiate between simple, compound and complex cavities
5. Describe Universal, Palmer and International methods of charting
6. Distinguish between anatomic and geometric tooth diagrams
7. Identify symbols of the conditions in the oral cavity
8. Identify terms commonly used with charting
