

# Dakota County Technical College

## HEAL 2700: Capstone

### A. COURSE DESCRIPTION

Credits: 3

Lecture Hours/Week: 2

Lab Hours/Week: 1

OJT Hours/Week: \*.\*

Prerequisites: None

Corequisites: None

MnTC Goals: None

This course provides students with the opportunity to function more independently in the simulation/clinical setting. Emphasis is placed on critical thinking and role transition from student to graduate nurse. Students are assigned to work as members of the health care team in the simulation setting. This course is for Health Care Technician students in their LAST semester of coursework.

**B. COURSE EFFECTIVE DATES:** 08/26/2013 - Present

### C. OUTLINE OF MAJOR CONTENT AREAS

### D. LEARNING OUTCOMES (General)

1. Demonstrate knowledge of the health care delivery system and health occupations
2. Demonstrate leadership and teamwork skills needed to accomplish team goals and objectives.
3. Demonstrate legal and ethical responsibilities specific to the Health Care Technician.
4. Describe the roles within teams, work units, departments, organizations, inter-organizational systems, and the larger environment.
5. Perform patient care procedures specific to the role of the Health Care Technician.
6. Perform physical comfort and safety functions specific to the role of the Health Care Technician.
7. Perform skills representative of the major allied health areas. Such skills must be at the *tech* level and not beyond the scope of the Health Care Technician/Patient Care Technician.
8. Perform supervised organizational functions, following the patient plan of care.
9. Practice organizational and effective team member skills in a clinical setting.
10. Provide biological, psychological, and social support within the role of the Health Care Technician.
11. Recognize and practice infection control procedures
12. Recognize and respond to emergent situations
13. Successfully complete a clinical rotation in the selected area of the Patient Care Technician.
14. Use information technology tools.
15. Use oral and written communication skills in creating, expressing and interpreting information and ideas.
16. Use verbal and written communications specific to the Health Care Technician.
